

Color Guide - Siliconized Polyester

Canam Steel Building Corporation is proud to offer the most durable silicone protected polyester coatings available in the industry today. Proprietary resin technology and an innovative formulation process provide the foundation for this superior SP system. For maximum color retention our exterior grade SP coatings are comprised of the same top quality ceramic and other select inorganic pigments which are found in our premium flouropolymer coatings. This highly durable top coat offers exceptional resistance to chalk, fade, corrosion and moisture. All standard Silicone Polyester colors shown on this card feature a 25 year finish warranty. Request a sample Warranty for specific warranty information.

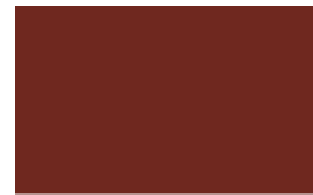

Burnished Slate

Evergreen

Aztec Blue

Brick Red

Saddle Tan

Ash Gray

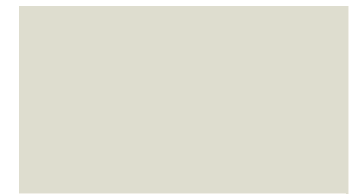

Charcoal Gray

Light Stone
